Terranos Sculptura– Sloping posts in the Terranos® netscape

Sculptura is the “sloping” addition to the otherwise straight Terranos range. A Sculptura element extends with three sloping Terranos posts across the diagonal of a 3 x 3 m (9'-10" x 9'-10") Terranos grid. The centre posts always slope in the opposite direction to the other two outer posts. The diagonal terminates with one straight Terranos post respectively.
